NUREG-1790/Docket # 70-3103

Public Comment: Draft Environmental Impact Statement for the Uranium
Enrichment Facility Proposed by Louisiana Energy Services for Lea
County, NM

To Whom It May Concern:

I am writing to submit a public comment regarding NUREG 1790 – the
draft EIS statement for the Louisiana Energy Services proposed uranium
enrichment facility in Lea County, NM.

The Bellefonte, Alabama site was found inappropriate for the NEF due
to the fact that it would have necessitated re-locating high-voltage
transmission lines to cross the proposed site. I see no difference in
Lea County, New Mexico – this site would also necessitate the
relocation of high pressure carbon dioxide pipeline that crosses the
site. Why did this not disqualify the Lea County site as it did the
Bellefonte site? I request that the EIS address this question in the
final draft.

Thank you,
